Yeah yeah ohh

...

Should have left it in how we do it

Should have left it in and let the music to in

I should've never come back .. to me

I should have never given you but the f*ck do I

I should have never listened to the .. stories

...the thousand time ..

Should have never don't know ..lovers

Come down ...and never gonna ..

Chorus:

Who's gonna love you when it all falls down

Who's gonna love you when ..

Whos' gonna .. get over

.. for sure, isn't you anymore

Nobody gives my ..tears ..

Nobody gives what my tears fall down .

.....

[Chorus:]

..like become lost and lonesome

Still ... to be ..

[Chorus:]

Thanks to garbo
