If I could have a moment please,
Then I'd bring you to your knees,
This contagious chemistry is killing me,
Oh you'll never disappear,
Until I give permission dear,
'Cos you're always gonna always be knee-deep
So please

Dearest Enemy,
I fear that you have just lost me,
Along the way,
Somewhere between the fake smiles and your free
drinks,
Please don't smother me,
I swear that I need some room to breathe,
What with you all up down and over me,
You're not a name your just a face,

It's contagious so catch it

This love is dirtier than you think,
Don't believe your eyes,
Believe your ears,
Just me.
This'll sink lower than you think,
Don't believe your eyes,
Believe your ears,
Just Me.

Dearest Enemy,
You should listen to the streets,
Because they tell you all you need to know,
About who and what you are,
No smoke without a fire,
With that I'll name drop you a liar,
It suits your skin and bones,
You've known all along,
Exactly what you are

It's contagious so catch it

This love is dirtier than you think,

Don't believe your eyes,
Believe your ears,
Trust me
This'll sink lower than you think,
Don't believe your eyes,
Believe your ears,
Trust me

This is the first and the last time,
I swear,
There's more where that came from,
She said,
Do you know what that means?
'Cos I know what that means

This is the first and the last time,
I swear,
It's a numbers game,
And you were there,
Do you know what this means?
'Cos we know what this means

No, (Oh!)
Who did you think I was? Yeah,
And oh, (Oh!)
This leads to the only lead you were working on,
And oh, (Oh!)
And you were hopeless at best, yeah,
And oh,
Forget the rest,
Hotel rooms,
Cheap thrill dress,
Lack of common sense!

Could make this happen

If I could have a moment please,
Then I'd bring you to your knees,
This contagious, contagious chemistry

Dearest Enemy,
You should have never trusted me,
You bitch.
