They say the problems come,  
Come in pairs and I am number one.  
So take a look at your friends,  
Oh, envy is a terrible thing.

Oh, you.  
You're so smart  
So smart that you didn't call my bluff  
oh you,  
you should just run..

if you run  
if you run

If you run away you won't stay.  
That's so cool.  
Is it everything you wanted it to be?  
(are you scared?)

Sing, take it away take it away  
It's so easy to stay, easy to stay  
When you know everything.

Stop

You had us all convinced  
That you were something  
someone couldn't miss  
But what did we really miss?

You say you'll give it up and you'll give it up all the way  
You say you'll give it up and you'll give it up all the way  
Give it up and give it up and give it all away..

If you run  
If you run

If you run away you won't stay.  
That's so cool.  
Is it everything you wanted it to be?  
(are you scared?)

Sing, take it away take it away  
It's so easy to stay, easy to stay  
When you know everything.  
I've got one good reason to keep you on your feet  
I've got another in the back home in the seat  
I've got one good reason to keep you on your feet  
I've got another in the back home in the seat  
I've got one good reason to keep you on your feet  
I've got another in the back home in the seat  
I've got one good reason to keep you on your feet  
I've got another in the back home in the seat  
I've got one good reason to keep you on your feet  
I've got another in the back home in the seat  
I've got one good reason to keep you on your feet  
I've got another in the back home in the seat  
I've got one good reason to keep you on your feet  
I've got another in the back home in the seat  
I've got one good reason to keep you on your feet  
I've got another in the back home in the seat

And you're so cool  
woooo

Running around just running your mouths  
About your home tome  
that's booming you know  
but you're so cool, you're so cool oh.  
Running around just running your mouths  
About your home tome  
that's booming you know  
but you're so cool, you're so cool oh.
