

## **You Me At Six "The Rumour"**

Visit "[The Rumour](#)" on MotoLyrics.com

Well, I am the cancer running through your veins  
I am the sweat that's dripping down the side of your  
face  
Well, I am the pain in the back of your legs  
It makes you fall to your knees, to your knees, it makes  
you believe

Well, I am the headline that's going to make front page  
news  
I am that fashion you're all into

We had to try something different, we had to try  
something new  
We had to make some heads turn, we had to put this to  
you  
We had to try something different, we had to try  
something new  
We had to make some heads turn, we had to put this to  
you

I am the rumor on everyone's lips  
I am the curse on your girlfriend's hips  
We are the different so we'll make a start  
Tell all your friends and sound the alarm

I am that feeling that you've done something wrong  
I am that friend who knew all along

We say we have our best friends yet we stab them in  
their back  
We try to show some love and it's a skill that we lack  
I've had it with this crowd, I am done with this town  
I've had enough of these shows and it's over with you  
now

We had to try something different, we had to try  
something new  
We had to make some heads turn, we had to put this to  
you  
We had to try something different, we had to try  
something new  
We had to make some heads turn, we had to put this to

you

And I am the rumor on everyone's lips  
I am the curse on your girlfriend's hips  
We are the different so we'll make a start  
Tell all your friends and sound the alarm

Hold your hands in, into the air  
Hold your hands as, as if you care  
Hold your hands in, into the air  
Hold your hands as, as if you care

Hold your hands in, into the air  
Hold on, hold  
Hold your hands in, into the air  
Hold your hands as, as if you care

Hold your hands in, into the air  
Hold your hands as, as if you care  
Hold your hands in, into the air  
Hold your hands as, as if you care

Hold your hands in, into the air  
Hold your hands as, as if you care  
Hold your hands in, into the air  
Hold your hands as, as if you care
