where did we go so wrong?  
that we couldn't see that we had  
lost control over everything  
it's personal, when she gets involved  
we've got these faces, they're painted  
so you can't ever tell

trophy eyes  
you've not been mine  
for longer than i'd like  
you shine so bright  
behind those lies  
and i need you more this time

and i am on my own  
but not for long  
i keep my friends so close  
and you even closer  
so wrong to say  
that i feel this way  
but i'm a man of my word  
and my words will never change

trophy eyes  
you've not been mine  
for longer than i'd like  
you shine so bright  
behind those lies  
and i need you more this time

trophy eyes  
you've not been mine  
for longer than i'd like  
you shine so bright  
behind those lies  
and i need you more this time  
(and this is what we'll sing)
