They tell me it's my birthday
Come for games and pie
You can take some cake home, but don't take my mind
It happens every birthday
Wearing a happy crown
Over expectations are bringing me down

Chorus
Well I'm having a birthday
My friends are here and everything's fine
Though I'm having a birthday, I can't get you off my
mind
I can't get you off my mind

Welcome to my birthday
Help yourself to the wine
No, I won't be drinking, I don't feel it's time

Balloons stand from the ceiling
Steaks on the closeline
Pin the tail on the donkey, right on his behind

Chorus
Well I'm having a birthday
My friends are here and everything's fine
Though I'm having a birthday, I can't get you off my
mind
I can't get you off my mind, I can't get you off my mind

Chorus
Well I'm having a birthday
My friends are here and everything's fine
Though I'm having a birthday, I can't get you off my
mind
I can't get you off my mind, I can't get you off my mind
I can't get you off my mind
