*I'll take both of your hands
In the morning we'll become friends
It gets me on my feet again

*With your hands on my hips
*I keep trying to kiss your lips
To get you on your back again

Oohh oohh oohh oohh
And it only gets better
Oohh oohh oohh ooh
Yes it only gets better
Oohh oohh oohh oohh
It doesn't matter if it's wrong or right
We can slowly disappear in the night

*I could never believe
Everything I receive from you
You got me on my feet again

When your world's upside down
*I will always be there with you, oh yeah
*To get you on the street again

Oohh oohh oohh oohh
And it only gets better
Oohh oohh oohh ooh
Yes it only gets better
Oohh oohh oohh oohh
It doesn't matter if it's wrong or right
We can slowly disappear in the night
*(2x)

A while ago I needed extra time
For this heart of mine
*To shine on...but I shine now!

Oohh oohh oohh oohh
Oohh oohh oohh oohh

And it only gets better

Oohh oohh oohh ooh
Yes it only gets better
Oohh oohh oohh oohh
It doesn't matter if it's wrong or right
We can slowly disappear in the night

Oohh oohh oohh oohh
*Yes it only gets better
Oohh oohh oohh ooh
Yes it only gets better
Oohh oohh oohh oohh
It doesn't matter if it's wrong or right
*We can slowly, slowly, slowly disappear in the night
*In the night (3x)
