"I've been looking through my window
And the world was at my feet
I was trying to imagine
That this view was mine to keep
Don't you want me to get closer today?

I've been looking through my window
Tiny people pass me by
A reflection of a person
In the corner of my eye
Don't you want to get closer today?

(chor.) Look into their eyes ooh don't
Look into their eyes ooh no

I am looking through my window
All the faces feeling hurt
And the world looks so much smaller
From my private universe
Don't you want me to get closer today?
