You've gotta do this right now
Cause you're always on the run
All you're hopes and dreams are gone
Don't let the moment slip away
When it slowly starts to fade
Oooooow yeah
Starts to fade, ooow yeah

You've gotta do this right now
Cause you're like a loaded gun
All you're hopes and dreams are gone
Everything that's lost is found
Just get you're feet back on the ground
Oooooow yeah
On the ground, ooow yeah

Don't let me down
Cause you don't believe anymore
Yeah down
Never give up on a dream

You've gotta do this right now
Cause you'll never be alone
All you're hopes and dreams are gone
I could never stand the pain
And watch you slowly slip away
Oooooow yeah
Slip away, ooow yeah

Don't let me down
Cause you don't believe anymore
Yeah down
Never give up on a dream

[instrumental solo]

Do it right now
Do it right now
