"She whisprs softly in my ear
Things do not seem as they appear
I've got a strange love

When she tells you that she feels alright
She might as well start a fight
I've got a strange love

(chor.) I never even realised that you and I
Could jus be
And only in my dreams I know
I know you belong to me

I want to look you straight in the eye
To find out if your truth is a lie
I've got a strange love

We'll work it out eventually
After she is through with me

(chor.) I never even realised that you and I x2

Ooohhhh
I know you know.....
