I thought by now wouldn't take that long  
Thought by now that you'd be gone  
Long gone

There's something about you that makes me cruel  
The way you dress the things you do  
The things you do, yeah yeah

You wanna be with me  
I don't wanne be with you  
I'm kicking up a storm  
So what the hell you're gonna do  
This thing is all I need  
It's gonna make me strong  
These are the good times c'mon

I wanna kiss you  
I said I just wanna kiss you!

When my temper just keeps on rising  
All this bitching makes me so  
I'm gonna blow

Killing time with you is killing me  
But losing you won't set me free  
Set me free, yeah yeah

You wanna be with me  
I don't wanna be with you  
I'm kicking up a storm  
So what the hell you're gonna do  
This thing is all I need  
It's gonna make me strong  
These are the good times c'mon

I wanna kiss you  
I said I just wanna kiss you  
But I don't wanna kiss you  
And I just wanna kiss you

Don't you know what I want what I want

Don't you know, baby  
Don't you know what I want what I want  
Don't you know  
Oh, yeah!!

Oooooooooooooohh  
ooooooooooooooooohh  
Lalalalalalalalalalala  
lalalalalalalalalalala.....

You wanna be with me  
I don't wanne be with you  
I'm kicking up a storm  
So what the hell you're gonna do  
This thing is all I need  
It's gonna make me strong  
These are the good times c'mon
