"Let Love Live A Little Bit Longer"

Visit "[Let Love Live A Little Bit Longer](#)" on MotoLyrics.com

(Never too late) for me to try to brighten my lonely days
To frighten away my clouds, if the right words you will
only say
Baby show a little spark of love
& it wouldn't be so dark above
Inside me burns a flame
Oh I can't believe it burns in vain
'Cause what goes around, you know it really might
come right back around
& my love you might return
If I let this torch I hold for you just burn

I'm gonna let love live a little bit longer
Let the torch burn a little bit stronger
Let it live & let it burn
Let it live & let it burn

No baby, it's never too late to make you see
Darlin' you belong right here with me
& one day, that's when you're gonna lose
So I'll hold on patiently
Although you said we're all through
I'm gonna carry this torch for you
Sweetie pie, there's just no doubt
No I don't wanna put the fire out
'Cause what goes around, you know it really might
come right back around
& my love you might return
If I let this torch I hold for you just burn

(repeat & fade):
I'm gonna let love live a little bit longer
