My world of loneliness  
You've filled with happiness  
Since you've been loving me  
Baby, since you've been loving me  
You've changed my world of emptiness  
Into a world of tenderness  
Since you've been loving me  
Baby, since you've been loving me

Since you came into my life  
I dream a different kind of dream at night  
Instead of crying myself to sleep  
I think of the next time oh yes we'll meet  
Instead of closing my eyes, counting the tears  
I visualize our love growing through the years  
With these words you speak so sweet  
You make me feel, feel so complete

So darlin' keep on  
(Keep on lovin' me the way that you're lovin' me  
Keep on lovin' me the way that you're lovin' me  
Keep on needin' me the way that you're needin' me)  
The way that you're needing me  
'Cause baby baby, since you've been loving me  
You've made my life more worthwhile  
So sweet, so complete, so keep on loving me  
...& fade
