It's spring time to fall again
This time I don't want anything else
It's sad I can't do this again
No more mazes and things to pretend

I can wait for a long time
I will always feel this way
You can wait for what feels forever
But it just wont go away

Long day
I put a rip in my party dress
One more hour of lies in my head
Can't stop this inner voice that I get

I can wait for a long time
And I will always feel this way
You can wait for what feels forever
But it just wont go away

I can wait for a long time
I will always feel this way
You can wait for what feels forever
But it just wont go away

Just one breath to take in
Let out a sigh of relief
Emotions change after a lie
Sends your heart flying high

I can wait for a long time
I will always feel this way
You can wait for what feels forever
But it just wont go away

I can wait for a long time
And I will always feel this way
You can wait for what feels forever
But it just wont go away

I can wait for a long time

And I will always feel this way
You can wait for what feels forever
But it just wont go away
