At the first sign of trouble  
Looks like it's gonna be raining,  
You'll start walking away and  
I'll still be here

At the first sign of trouble  
Looks like it's starting to fade and  
You'll start walking away, but  
I'll still be here  
At the first sign of trouble

Thought I had everything,  
'Cuz I found a man for me  
Knowing you were just a dream I  
Tried to cheat reality  
You were never into me as much as I was into you  
That's what I get for that  
It was kinda crazy,  
I'm doing better lately,  
Trust me I learn from that

It's so funny baby  
'Cuz in hindsight you're fake as the lime light now  
Giving you your working papers,  
Don't let the doorknob hit you on the way out  
See you later alligator  
All that love goes to me  
Focusing on getting paper,  
'Til the right man comes for me

At the first sign of trouble  
Looks like it's gonna be raining,  
You'll start walking away and  
I'll still be here

At the first sign of trouble  
Looks like it's starting to fade and  
You'll start walking away, but  
I'll still be here

Knew I had to let it be

'Cuz I found out the dirty facts  
Men cheat, lie and steal to get what they want  
And I'm so pass the drama that I could never see  
myself going back  
I'm better of being single, more than free to mingle

It's so funny baby  
'Cuz in hindsight you're fake as the lime light now  
Giving you your working papers,  
Don't let the doorknob hit you on the way out  
See you later alligator  
All that love goes to me  
Focusing on getting paper,  
'Til the right man comes for me

At the first sign of trouble  
Looks like it's gonna be raining,  
You'll start walking away and  
I'll still be here

At the first sign of trouble  
Looks like it's starting to fade and  
You'll start walking away, but  
I'll still be here

I will be here, I'll be here  
(All my girls, would you light this up, one time)  
(All my girls, would you light this up, two times)  
I'll be here, I'll be here  
(All my girls, would you light this up, one time)  
(All my girls, would you light this up, two times)  
I'll be here, I'll be here  
(All my girls, would you light this up, one time)  
(All my girls, would you light this up, two times)  
I'll be here, I'll be here  
(All my girls, would you light this up, one time)  
(All my girls, would you light this up, two times)
