There's plenty of fish in the sea, and plenty of lovin' to  
go around  
It hurt when you walked out on me, but I'm all better  
now,  
So I won't let No Heartache bring me Down

There's nothin that time won't heal  
So I watch the minutes spinnin' 'round,  
These teardrops ain't no big deal  
Cuz the first million don't count  
And I won't let no Heartache bring me down

Except in the day, Kinda maybe at night, or when I'm  
turnin' left or right  
Except when there's blue in a brand new sky or green  
growin' on the ground,  
Oh I won't let no Heartache bring me down

I've gotten right back on my feet, so I call a few friends  
and go downtown  
Except for each time I breathe, Girl I hardly miss you  
now  
And I won't let no Heartache bring me down

Except in the day, Kinda maybe at night, or when I'm  
turnin' left or right  
Except when there's blue in a brand new sky or green  
growin' on the ground,  
Oh I won't let no Heartache bring me down  
Girl I won't let no Heartache  
I won't let no Heartache bring me down
