I like an old guitar
Playin' a Gosdin song
In a smoky bar
That's what turns me on, yeah

If that makes me a little old school
Go ahead and call me yesterday's old fool
If that makes me a little throwback
Throw it at me, don't worry, I can take that
Call me hick, hillbilly Hell I'm proud to be What makes
me

I like a 60's truck
The kind that's solid steel
The kind that always runs
It takes a man to turn that wheel

If that makes me a little old school
Go ahead and call me yesterday's old fool
If that makes me a little throwback
Throw it at me, don't worry, I can take that
Call me hick, hillbilly Hell I'm proud to be What makes
me

Yeah, I don't swear in front of no woman
I answer yes, sir to my old man
I drink my liquor with a side of nothin'
Yeah, good and country that's what I am

If that makes me a little old school
Go ahead and call me yesterday's old fool
If that makes me a little throwback
Throw it at me, don't worry, I can take that
Call me hick, hillbilly Hell I'm proud to be What makes
me
