"The Food Group Song"

Visit "[The Food Group Song](#)" on MotoLyrics.com

Well I went and saw my doctor today he

said son you've been eatin' the unheathly

way you should eat the four food groups

and cut back on beer

But his words must have mixed up before they reached
my ears

(Chorus)

{Cuz im gettin serving some fruit in apple martini's

and all my dairy comes from cold bayleys amaynays
for meat I like steak

and when im good and tipsy six servings of grain
comes
from Jack Daniel's Whiskey}

Well ive got to say that my perscription works fine
cuz i've never felt better than

I do tonight the only side affect I have

to dread is I cant ever remember a damn word that I
said

(CHORUS)2 times

I said six servings of grain comes from Jack Daniel's
Whiskey!
