"Light Fuse And Get Away"

Would you like to sit and talk to me
about the way things changed so
suddenly
when your senses come and the feeling
goes?
can you remember feeling much too close?
Stop your hands from shaking.
Look at me.
Are your senses racing endlessly tracing
past impressions? So were mine.
Have you ever been used or will this be the first time?
It's come so dear to me
Light fuse and get away
No gain, no pain
It's a fatal game
and the true lose everything
I can see
what trust and loyalty have done
for me
falling miles from the mark
with a thirst for revenge and

a dangerous heart

I've tried to wash from memory

feelings of betrayal and the incidents

that plaque me since I lost my sense

of innocence

A history of changes now I'm loving

now I'm losing keeps me constantly

in fear of hearing "I can't see where this is going"

You lie alone with the memory feeling the

ceiling and walls closing in on

Your Conscience - my ally

the guilt - your affliction

from preying on praise as you fed

an attention addiction

Someone told me

Light fuse and get away

No gain, no pain

and when it's lost to dust

you can crawl from the wreckage

I can see what trust and loyalty have done

for me

lying bleeding in the dark

with a thirst for revenge

and a dangerous heart

It's come so clear to me

Light fuse and get away

No gain, no pain

It's a fatal game

and the true lose everything

I can see

what trust and loyalty have done for me

falling miles from the mark

with a thirst for revenge

and a dangerous heart
