just take it take my picture go ahead and steal my hair
pull it grab it use it abuse it I don't care

Have a piece of me help yourself go along with
everyone else rip me cut me chew me up and spit me
out if you dare

you can't have it even though you want it

keep taking what isn't yours put your label on it and call
me a whore imitate it eminate it sell it out and generate
it cuz it's there

I'll be shifting to 8th gear and I spot you in the rear view
mirror pullin up racin up scrapin it and fakin it but I'm
already there

you can't have it even though you want it you can't have
it even though you try to take it you can't have it
