It's three o'clock in the mornin'
I hope this bar closes soon
I've been drinkin' all night
And you know it just ain't right
I don't know a soul in this room

Chorus

You told me last night you had nothin' to give
But nothin' felt real good to me
Well I know your heart is with somebody else
But please while you're here with me
Baby rest easy
Don't stay out in the cold
I just want to hold you
It would please me if you'd stay

I'm standin' out here on the corner
I don't know which way I'm gonna go
Should I just walk away
Or did I hear you say
You needed someone to get you through
