### "All I Have"

Recorded excerpt from "1984"

All masks thrown down  
All cards face up  
All I have is on the table  
Naked, unveiled and now clearly seen  
All I have is on the table  
Lord, you know me inside and out  
All I have is on the table  
Where will a man hide from your eyes?  
Lord, you are my God, my savior and over the world  
Your hand guides us, protects us  
Your sword delivers us  
Intimacy, transparency

Open because you made me pure  
All I have is on the table  
Alive because you made me pure  
I'm special because you made me
