wisper me
take my hand
you and me
understand
I just want to be here I do
I just want to be here for you

You look at me
I kiss your face
Youre drowning me
In your embrace
I just want you here to stay
And be with you everyday

I will be the one,
One for you
Forever and ever

I will stay
The one,
One for you
Forever

When youre cold
Take my place
Youll be loved
In many ways
And I want to hold you tight
Everyday and everynight
