Who's the other guy? And what's he got on me?
Take me for a ride, with your apologies
Keep me on the side
If you should ever change your mind I'll wait here
patiently

Chorus

Show me you're alive
Just show me somethin'
I'm begging you to dive right in with me
If you don't have the time, I guess I'll make it
Show me you're alive
I'll show you somethin' real

And give it to me now, I need some action
Inner-city girl's got my attraction
Make up anything and I'll believe the words you say
without a doubt

Chorus

Show me you're alive
Just show me somethin'
I'm begging you to dive right in with me
If you don't have the time, I guess I'll make it
Show me you're alive
I'll show you somethin' real

You can find me at the bottom of my drink
Sayin' "no, I won't go"
I'll pick apart every little thing you say to me
You know I go spinning around in circles
And I know you throw the best mixed signals

Chorus

Show me you're alive
Just show me somethin'
I'm begging you to dive right in with me
If you don't have the time, I guess I'll make it
Show me you're alive
I'll show you somethin' real

You can find me at the bottom of my drink

Sayin' "no, I won't go"
I'll pick apart every little thing you say to me

Who's the other guy? And what's he got on me?
Take me for a ride, with your apologies
Keep me on the side
If you should ever change your mind I'll wait here
patiently
