Hey mister, excuse me
I couldn't help but notice the way you kissed her
Like you were floating on air
Surrounded by traffic, you held onto each other as if by
magic
Made the world disappear
Tell me your secret
Oh, throw me a line
How do you keep it forever alive

(CHORUS):

'Cause all I want is a kiss like that, a love like that
And all I want is to feel that way every day
Everything love has to give
Every moment that I live
You've got it all, that's all I want

He answered, I listened
A cup of coffee later and a slice of wisdom
He opened my eyes
He said, don't rush it, don't fight it
Follow your heart and then just trust it
It'll all come in time
It's really that simple
Oh, to make love right
Don't take it for granted
But don't hold it too tight

(CHORUS)

I wanted to tell him, thanks for your time
I felt so enlightened and I felt so inspired
But he slipped into the crowd without saying goodbye
Goodbye, goodbye

All I want is a kiss like that, a love like that
And all I want is to feel that way every day
All I want is a kiss like that and all I need is to feel that
way
Everything love has to give
Every moment that I live

You've got it all, that's all I want
