Time stops for no one, it moves on unaware
It's easy not to notice
It's easy not to care
Conversation circles
There's money changing hands,
Been standing in the middle
I've been caught up in the spin
Out of the confusion
The static and the noise
You got my attention

You made me wanna live like it's the last moon rising
Scream just like no one's there
Lose all of my defences
Hold you touch you love you like it's
The very last moment in time

It seems like I woke up beneath a different sky
And I'm drunk on what I'm seeing through these open
eyes
All the little ways you move me
All the places you expose
The illusion I held on to
You've got me letting go
I just wanna stay here soaking up the rain
Falling all around me, wash the world away

You made me wanna live like it's the last moon rising
Scream just like no one's there
Lose all of my defences
Hold you touch you love you like it's
The very last moment in time

Let me feel you next to me
And let me taste the breath you breathe
Open up the space between us

Live like it's the last moon rising
Scream just like no one's there
Lose all of my defences
Hold you touch you love you like it's

The very last moment in time

Live like it's the last moon rising [very last moment in time]

Scream just like no one's there

Lose all of my defences

Hold you touch you love you like it's

The very last moment in time
