Nobody here is dumb enough  
Out on the limb of going snob  
Baby you broke the golden rule  
Baby your straight and no one is fooled  
No one is fooled (2x)

And they look down their nose  
At their souls and souls  
Because everyone knows  
That a dog dressed in clothes is still a dog

Lie on the floor and on the park  
Who's gonna get this kid a car  
Mop up the mess light the life  
No one to save your social life  
Yor social life  
No social life

And they look down their nose  
At these soul and souls  
Because everyone knows  
That a dog dressed in clothes is still a dog (3x)

Is still a dog...(2x)  
Because everyone knows  
That a dog dressed in clothes is still a dog
