"Don't Say Goodbye"

Visit "[Don't Say Goodbye](#)" on MotoLyrics.com

Today I heard our favorite song on the radio
I close my eyes and saw our first hello
And then I saw the time
We fell in love in each other's arms
I opened my eyes and you were gone

Suddenly I realized how much I love you so
And how I get surprised without your love
Since the time we said goodbye
It's hard to make you stay
How I wish you'd never go away

Don't say goodbye
It's hard to let you go
Tomorrow seems so far away
For me to know
If you and I will always be
In love forever more
Just leave me with the memories
All alone...
(All alone...)

Today I read your letter and waited for your call
I wondered if you think of me at all
Then I turn your radio and hear our favorite song
Then I knew you'd soon be coming home

Don't say goodbye
It's hard to let you go
Tomorrow seems so far away
For me to know
If you and I will always be
In love forever more
Just leave me with the memories
All alone...
All alone...
