INTRO

Every morning when I wake up
I know someone's lookin' on me
By the moment I turn the radio on
I know that I'll be singin' it too

REFRAIN

'Cause every time I remember our moments together
It will make me smile
How wonderful it is to belong
To someone who cares like you in my life
Ooh ooh

Every time I see a little kid
Playin' on the street
I would think of you holding me
Oh, how I long for your embrace

REFRAIN

And every time I remember our moments together
It will make me smile
How wonderful it is to belong
To someone who cares like you

[Repeat REFRAIN]

CHORUS

In my life, in my life
There's only you in my life
Dreams do come true in my life
Nobody brings me happiness like you do
In my life
(In my life, hoo hooh)

Every second of each passing time
I could feel you heart next to mine
And at the moment the wind blows at my face
I close my eyes and feel you kiss

REFRAIN

'Cause every time I remember our moments together

It will make me smile
How wonderful it is to belong
To someone who cares like you

CHORUS

In my life, in my life
There's only you in my life
Dreams do come true in my life
Nobody brings me happiness like you do

In my life, in my life
There's only you in my life
Dreams do come true in my life
Nobody brings me happiness like you do
In my life
