

Young Dubliners "Evermore"

Visit "[Evermore](#)" on MotoLyrics.com

So you take your first step today
Next to know you'll be running away
Since you came I've been upside down
Now I know I never wanna come down

Open up the world, climb on inside
Hold on to my hand, we're gonna take a ride

CHORUS:

If you tire as you wander I will carry you back home
You may fall, you may stumble -- you'll never be alone
Wrap your arms around me, I will never let you go
This I swear
I'll be there
Evermore

Evermore
Watch you growing up every day
When you talk I wonder what you'll say
Build you up and make you wise and strong
Travel the road unless the travel's done

Look up at the stars that's shining tonight
As long as they are there I am right here by your side

CHORUS

Open up the world, climb on inside
Hold on to my hand, we're gonna take a ride

CHORUS

Evermore, evermore...
