Walking around in the dark
Trying to hold on to something
The sound of your voice in my ear
But I don't wanna hear nothing

Yo, so I go to a place where it's warm
Got my eye on the center of the storm
The ground is starting to rumble
C'mon, I feel the ice getting thin
I'll tell you where it ends when you tell me where you've
been
And I don't know how I'm stable

Round and around and around we go (yo, just moves
so fast)
Spinning in a twister
Round and around and around we go (she's in the past,
but)
I can tell that you miss her
This shit won't last, 'cause
I can tell that you miss her

My heart is beginning to wear
Your face seems to lose all expression
You say that you really don't care
But I get another impression

Yo, so I'm told everything's good, everything's all right
But I still can't sleep through the night
Stars are starting to burn out (yeah, yeah)
And they fade when they fall
Do it in the days, now they don't shine at all
The tables are starting to turn now

Round and around and around we go (yo, just moves
so fast)

Spinning in a twister
Round and around and around we go (she's in the past,
but)
I can tell that you miss her
This shit won't last, 'cause
I can tell that you miss her

You wanna leave? Then go
If you don't think of me when you sleep
Feel free to leave the key by the do'
Feel free to leave the key, just go
You wanna live in the past? Go 'head
You wanna live in the past? Enough said
No, you don't live in my house
No, you don't sleep in my bed
No, you don't live in my house
No, you don't sleep in my bed
What? No

Round and around and around we go (yo, just moves
so fast)
Spinning in a twister
Round and around and around we go (she's in the past,
but)
I can tell that you miss her

Round and around and around we go (yo, just moves
so fast)
Spinning in a twister
Round and around and around we go (she's in the past,
but)
I can tell that you miss her
This shit won't last, 'cause
I can tell that you miss her
Just kiss my ass
I can tell that you miss her
