All the clouds are breaking down  
They watch me rain in my hometown  
So take my picture, take it now  
You'll need it when I'm not around

We left behind a silver shield  
Defense is truth you can't conceal  
'Cause what you see is so unreal  
You'll never know until you feel

I can't know 'til I breath  
Put a picture with my frame in it  
Put my name in it  
For me when I leave (yo)  
And all the time that I spent  
You could never believe, so  
Sit back in the clouds and just watch me rain  
Is this really my life? I'm just going insane  
Now is this how it feels, just playing the game?  
But I'm playing my heart out  
You doing the same?

Have I lost my mind?  
To fortune cookie signs? There's only so much time.  
(yeah)  
I travel to the sun  
My eyes are open wide  
A journey has begun

All the clouds are breaking down  
They watch me rain in my hometown  
So take my picture, take it now  
You'll need it when I'm not around

I watch my life go by  
Getting in, getting out, 'til I run out of time  
I'm hating on myself (myself)  
I'm telling you I'm sober, I'm not  
You can tell  
What am I doing with my life? (I don't know)  
So much tension in the room, you could cut it with a

knife  
But I walk with my head up  
I got no shame  
I'm walking with my head  
You doing the same?

Have I lost my mind?  
To fortune cookie signs? There's only so much time.  
(yeah)  
I travel to the sun  
My eyes are open wide  
A journey has begun

All the clouds are breaking down  
They watch me rain in my hometown  
So take my picture, take it now  
You'll need it when I'm not around

We left behind a silver shield  
Defense is truth you can't conceal  
'Cause what you see is so unreal  
You'll never know until you feel

Have I lost my mind?  
Watch me rain  
Watch it all come down  
Have I lost my mind?  
Just watch me down  
Watch it all come down

It's time to say goodbye  
You knew it all along  
It's time to say goodbye  
I'm gone

All the clouds are breaking down  
They watch me rain in my hometown  
So take my picture, take it now  
You'll need it when I'm not around

We left behind a silver shield  
Defense is truth you can't conceal  
'Cause what you see is so unreal  
You'll never know until you feel
