Can you see me now?  
Can you see me now?  
I can dream  
yes I seem to see a gleam  
the gleam of how it use to be  
yesterday  
But it's today, the door is shut and if I may  
I'll say I want my yesterday

Since you've been gone  
I think about your eyes  
and how they said so much with just on look  
Now it's the page in the end of my book  
of me and You

I never said what I wanted to say  
I never said what I wanted to say  
I never said what I wanted to say
