You come home
Uncompleted
Down and defeated
Feelin' all alone
You think your dreams
Are passin' by you
And deep down inside you
You're runnin' outta hope
If you could only see
What I see
You'd see the man that you
Wish you could be
If you could only see
In you...
You're my strength
The light that guides me
The angel beside me
The path that I walk
When I wake up
You're all I want to
The one I run to

When I start to fall
If you could only see
What I see
You'd see the man that you
Wish you could be
If you could only see
In you...
I wish that I could make you believe
All that you are
You don't have to be
Everything to everyone
Everybody's number one
'Cause baby you're everything to me
If you could only see what I see
You'd see the man that you
Wish you could be
If you could only see
What I see
You'd
