I LIKE GIRLS--George Thoroughgood

well

well

I really really really really really really like girls

yeah I really really really really really really like girls

I like girls

I like girls

I like girls

I like the way that they giggle

when they walk up and ask you to dance

I like the way that they wiggle

wrapped up in the skin tight pants

they got style

they got smiles

they drive me wild!

yeah I really really really really really really like girls

yes I really really really really really really like girls!

I like them small

I like 'em tall

I like 'em all!

now it don't bother me

if a girl don't know how to cope

because the things that they know

how to do can't be learned in a book!

they got smarts

they got hearts

they got my heart!

that's why I really really really really really really like
girls

yeah I really really really really really really like girls!

I want 'em small

I want 'em tall

I want 'em all!

every day in every way they're here to stay

they're really really neat

they're really sweet

they're real petite

I LIKE GIRLS!!!!!!!!!!
