Comin up i thought cupid was stupid
Only two loves, my family and music
Fallen through somethin, jus couldnt do it
It was the beginin of time
And you was like nine but god damn you was fine
Use to stay on my mind
When i was out on my grind
Open up the bags when im choppin my dimes
There in the spindell
Stood by me from the windows
Popped up mad shit with me and got me rentals
Sick with the plastic, what can i say
Bitches hat around the way i had a lady, they
Gossipin, watchin him, runnin back
Moved up north, kinda fell of track
Still my peoples though
Love when i see you though

Once a while, might call
Jus to chill, might ball
Forever my dogg
Even when i downfall
First in line whenever chicks is involved

Cuz my hearts been racin for your lovin
