What kind of light will bring us all together
When it gets dark we'll only have each other
So take hold of the closest thing to what you want and
don't let go
What would they say if we could escape
And spend tonight like it's the best of our lives

Cast your fears away, save your worries for another
day
Come with me, I promise you won't be the same

I wanna be with you, come with me
(Don't wanna wait till tomorrow)
I wanna be with you will you come with me?
(Don't wanna wait till tomorrow)

I wanna be with you will you come with me? Yeah
(Don't wanna wait till tomorrow)
I wanna be with you will you come with me?

I want to make you feel like I do, I want to show you the
world
I don't wanna wait too long and miss our time to decide
Take a breath and ask yourself
Is it worth it to take this chance with me?

Cast your fears away, save your worries for another
day
Come with me, I promise you won't be the same

I wanna be with you, come with me
(Don't wanna wait till tomorrow)
I wanna be with you will you come with me?
(Don't wanna wait till tomorrow)

I wanna be with you will you come with me? Yeah
(Don't wanna wait till tomorrow)
I wanna be with you will you come with me?

Don't want to wait too long and miss our time to decide
Take a breath and ask yourself
Is it worth it to take this chance with me?

I wanna be with you, come with me
(Don't wanna wait till tomorrow)
I wanna be with you will you come with me?
(Don't wanna wait till tomorrow)

I wanna be with you will you come with me? Yeah
(Don't wanna wait till tomorrow)
I wanna be with you will you come with me?

I wanna be with you, come with me, yeah
I wanna be with you will you come with me?
