Every word you say adds to this complicated lie
You've been selling me but I'm not buying
What would you do, tell me, tell me, what would you do

Every time you talk you complicate this life
Lost focus when I close my eyes, now they're open and
I realize
You don't think you're caught, think you're special,
think you're smart
And you're pulling me apart

What would you do if you knew what I do, tell me
What were you expecting, tell me
Did you think I wouldn't get mad, fall down, break in
two
What would you say, never thought it would come to
this, tell me
But you got so reckless, tell me
I'm not blind, I just wish I could not see, what would you
do

How long did you fell into you, my last hope of dreams
come true
If you died in my lips last night trying to tell me lies
Could not even tell me truthfully
And you wanna know how it makes me feel, I can't feel
anything

What would you do if you knew what I do, tell me
What were you expecting, tell me
Did you think I wouldn't get mad, fall down, break in
two
What would you say, never thought it would come to
this, tell me
But you got so reckless, tell me
I'm not blind, I just wish I could not see, what would you
do, tell me
What would you say, tell me

What would you do if you knew what I do, tell me
What were you expecting, tell me
Did you think I wouldn't get mad, fall down, break in

two

What would you say, never thought it would come to
this, tell me

But you got so reckless, tell me
I'm not blind, I just wish I could not see

What would you do if you knew what I do

What were you expecting, what would you say

You got so reckless, never thought it would come to
this
