Baby, no frown
Don't let tomorrow's goodbye bring you down
The night is still young,
The city is glowing, the bell hasn't rung

Let's take a stroll down the shoreline
Talk about love baby, yours and mine
I guess I'm in the mood to stay out tonight

Honey look up,
Don't be so sure we're a half-empty cup
Show me that smile,
Take comfort in knowing we aren't on trial

Why should we play by the same old rules?
Since when do we follow what others do?
I guess I wanna look at us brand new

I come to you
Revived
Restored
So alive
So don't let it go sour
Stay with me for one more hour

Chorus
