Staring at the mirror  
On the steamy bathroom wall  
Eating a noddemix  
As the people are running  
The high rise starts to fall  
While she neatly wipes her lips

The reporters pick up their pads and pens  
As they rush to the scene  
And the cameras wink on the gory views  
How the editors agree

Putting on her makeup  
She glances at the clock  
Next she paints her nails  
The train has collided  
The driver didn't stop  
As she slips onto the scales

The reporters pick up their pads and pens  
As they rush to the scene  
And the cameras wink on the gory views  
How the editors agree

Looking for her car keys  
She finds them in her shoe  
Lift the magazine from the floor  
That long-ago mystery  
Has revealed another clue  
As she quickly shuts the door

The reporters pick up their pads and pens  
As they rush to the scene  
And the cameras wink on the gory views  
How the editors agree

Yeah, man, they just pulled over now  
And it looks like it's gonna be an all-night job tonight,  
you know  
If you could send a few cars, it would sure help a lot

And I should sip wine in front of TV tonight

Because they're all shit I wish you to see  
I'll start making a few inquiries already  
Okay, that's all for now
