Within the broken mirror
I clearly see your reflection
Tears roll down your face, tears roll down your face
As your finger traces the edge of the new moon

Who is that I'm calling out to
I can see you walk away from me
Time and time again, time and time again
You will find me knocking on your door

With my back pressed against the weight of the world
And the speed of the night
It felt as if a thread was snapping in two
And I held onto you, held onto you, held onto you
With all my might!

As you share an unbalanced kiss with me
I hope you can feel us getting closer to love
And may your fear and your tearful deceptions
Both come to rest in my heart

OH MY LOVE!!!!!!!!!!!!
