"Your Muse"

Welcome in the night
I'll show you what 's right
all your call and screams might
will be my new guide
Screaming your name
in the night
it's a blame
falling in the dark flame
archaic earnestness from the darkness
calling your name invane
playing your favourite game
let me go and pray under the heavy rain
You Hipnotize me
You don't let me go
I can't escape
please just let me fall

I don't wanna fight your rules
I don't wanna play with fools
I would like to be your muse
I just want to be a doll
on the floor you'll crawl
I will look you like an owl
this time i don't want to be fooled
I don't know what you
would like
You want to

I just want to be your muse
prayn' invane
