"Broken Hearted"

Visit "[Broken Hearted](#)" on MotoLyrics.com

im broken up in pieces you made me this way
and since you been away all i can say is that
you have put me in a coma and i wont wake up till i see
your face again

i have dreamed about us all the time and you put this in
a tight situation
and ive thought about all the times we were one and
you did all of this for my love
now i see that you're gone from this concentration but i
guess that's partially my fault
and i know it's going to be some time before we sing a
lullaby and i guess that's all there is
i guess that's all that fits
yes im broken hearted
since we have parted
but ill get over it

you cant say you didnt love me
and you cant say that you lost control
no one can control my life but me
and my heart which belongs to you
see i fell in love more than ever
but your heart keeps bringing me back to you
and now that we're together heart to heart
mind to mind
i guess i found out we're not meant to be
i guess that's all there is
i guess that's all that fits
yes im broken hearted
since we have parted
but ill get over it

you must stay with me for awhile
i cant think of you being away not even for a mile
i know im obsessed
but your love is the best
and you should see that me and you were meant to be

you can call on me whenever you need me
whenever you're lonely

i will be there
yes i will i will
and if there's a time you feel like you're never going to
make it
ill be by your side
ill be down to ride
now i guess we must make a pact
so that our promises will be a fact
you're the key to my heart
the joy of my success
the fun of my laughter
you complete me
you solved me
you held me tight
you involve me
and i cant live without you
im stuck on you
you're all i need is you

let me sit down and think of this dream
there's more to it than it seems
the day that you'd come back to me
is truly just a dream
i guess that's all there is
i guess that's all that fits
yes im broken hearted
since we have parted
but ill get over it
