"I Thought About You"

Visit "[I Thought About You](#)" on MotoLyrics.com

i thought about you boy
yes i thought about you
i thought about you boy
yes i thought about you

when you call me baby i become so crazy thinkin im
your lady is insane
and you stop by to say hi i become so hectic inside cant
believe youre truly mine boy you make me faint
just to see your face is like a blessing boy youre what i
been missing just thinkin reminicing
oh oh

when i go to sleep (I thought about you)
and dream (I thought about you)
visualize things (I thought about you)
it's all because of you
when i wake up (I thought about you)
get dressed (I thought about you)
go to work (I thought about you)
it's all because of you
hang out with friends (I thought about you)
shopping (I thought about you)
call my mama on the phone (I thought about you)
it's all because of you
go home (I thought about you)
take a shower (I thought about you)
go back to sleep (I thought about you)
it's all because of you

see i know boy this is happening a little too fast and i
hope that itll last cause i need you boy
if you ever need anything
boy im really willing
to give you everything
im always yours

see im a fool for lovin you
but i dont care because you're so important to me

when i go to sleep (I thought about you)

and dream (I thought about you)
visualize things (I thought about you)
it's all because of you
when i wake up (I thought about you)
get dressed (I thought about you)
go to work (I thought about you)
it's all because of you
hang out with friends (I thought about you)
shopping (I thought about you)
call my mama on the phone (I thought about you)
it's all because of you
go home (I thought about you)
take a shower (I thought about you)
go back to sleep (I thought about you)
it's all because of you

i...love...you boy
and i need
i...need...you boy
and i think
i think...of you...all the time
and nobody can stop me
and that...won't never change
because we belong together

when i go to sleep (I thought about you)
and dream (I thought about you)
visualize things (I thought about you)
it's all because of you
when i wake up (I thought about you)
get dressed (I thought about you)
go to work (I thought about you)
it's all because of you
hang out with friends (I thought about you)
shopping (I thought about you)
call my mama on the phone (I thought about you)
it's all because of you
go home (I thought about you)
take a shower (I thought about you)
go back to sleep (I thought about you)
it's all because of you

It's all because of
You.....
