Someone save me I called the S.O.S signal
Can you please rescue me baby boy

I'm in the mood for loving no one else I put above and
I've been waitin for a little somethin, somethin
So someone save me that someone special
Close your eyes and count o ten and see how we begin
I want you here by me cause boy it's plain to see
I need you to rescue me baby

Someone save me I called the S.O.S signal
Can you please rescue me baby boy

Turn the lights out get in the mood can you dig the
groove
I love the way you move just so slowly
Grindin on me
Ooh don't stop till it's morning
I love the way you put it down when you rescue me
You touch and fine self has set me free baby

Someone save me I called the S.O.S signal
Can you please rescue me baby boy

Grind on me real slowly get freaky before you rescue
me
Feel your touch I like it rough oh so much I can't get
enough

Someone save me I called the S.O.S signal
Can you please rescue me baby boy

(rap) hey homie look at me dead in the eye I know you
think I'm fly but yet still it's hard to deal with being
lonely and it's hard to get what you want be who you
want and do what you feel like yeah and it ain't easy
callin for help boy but once you rescued me I felt so
secure but I'm not so sure if this is the cause or what is
the cure I just want you to know that I'll go where you go
papi chulo no matter how far day noon night morning
wherever you are I'll ride for you I'll for you everything

you do I'm doing for you see it's crazy how I'm fallin for
in love no one better than you no one my heart matches
with I put no one above I can't even believe I found love
people actin the same in all ways and breakin up makin
up in different ways splittin up jiggin up never ever the
same hopefully we'll never change I wanna feel this
again my lover and friend we gon ride or die till the
end my baby my boo my wishes my dream let's be
lovers and friends like mo and Hakeem but for real our
love will be so strong so long and stay the same I love
you boy and I'm so glad that you came word

Someone save me I called the S.O.S signal
Can you please rescue me baby boy
