you are not ready for my loving  
you think you are but youre not  
you think that i will wait around for you  
but i can't wait around for you  
you think youre ready for my loving  
but your not ready for me at all

i need somebody with loving passion  
someone who will be down for me  
someone who can see that my love is eternal  
but youre not the one for me  
i have to go with whats best for me  
but baby youre not ready  
you not ready for me

see i can see why you want to let this go  
let this go  
i can see how even thinkin about it can make you lose  
control  
make you lose control  
i know that im not always going to feel this way  
feel this way  
so dont' be upset just listen to what i say  
listen to what i say  
i say

youll always be the right one for me  
but baby you are not ready for me  
and i have to fly away until your ready for me  
i know this might seem like its a dream  
but im telling you this is the last scene  
you used to be so right for me  
but honey honey you are not ready

see i can see us makin up and breakin up  
and in and out of all these situations  
i can see us trying sooth out  
all these complications  
i need a man who i can be eye to eye with  
were both leaders no one to follow  
and if you keep on followin me

ill try to get you to see  
that no matter what you say to me  
no matter what you do  
i will still always love you  
but baby boy i cant keep waiting for you  
when all the love i give i have to receive it back too

youll always be the right one for me  
but baby you are not ready for me  
and i have to fly away until your ready for me  
i know this might seem like its a dream  
but im telling you this is the last scene  
you used to be so right for me  
but honey honey you are not ready

youll always be the right one for me  
but baby you are not ready for me  
and i have to fly away until your ready for me  
i know this might seem like its a dream  
but im telling you this is the last scene  
you used to be so right for me  
but honey honey you are not ready

dont get mad at me that's all i have time for right now  
you can't base your life on soemthing that's not right  
now  
and if you cant see it then i sure can  
baby you cant be a boy you have to be the man

youll always be the right one for me  
but baby you are not ready for me  
and i have to fly away until your ready for me  
i know this might seem like its a dream  
but im telling you this is the last scene  
you used to be so right for me  
but honey honey you are not ready

youll always be the right one for me  
but baby you are not ready for me  
and i have to fly away until your ready for me  
i know this might seem like its a dream  
but im telling you this is the last scene  
you used to be so right for me  
but honey honey you are not ready
