Mariah: ooh ooh oh no
ooh ooh oh no

Tiffanie:
lovin u aint always easy ill admit that babe
and when you leave me i cant help but to call you
names
and though sometimes i always seem unfair baby it's
because i care
i always dreamed that we'd be by each other's side all
the time
i always thought that maybe we could bond and have
each other's back all the time
but now you're flipping changing numbers and i think
that it's time for you to go

Mariah:
if every thought that we were gonna stay alive
they might as well look at the look thats in my eye
i think its time for you and i to say the sad goodbye
you wont see me cry

Both:
when you left i thought that it was me
now i see thats how itll be dont come back to me
i dont need you in my life no more
i can see that we always did rush
i didnt love you all that much
we wont keep in touch
baby we wont keep in touch

Tiffanie: (mariah){both}
you used to mean the world to me
i used to hear songs on the radio
sayin to me chantes got a man at home
no way (no way) im not gonna stay
and now all i hear on the radio
now that your gone all i hear is
{dont you wish that you had your man in your arms
tonight} ohhh

Mariah:

if every thought that we were gonna stay alive
they might as well look at the look thats in my eye
i think its time for you and i to say the sad goodbye
you wont see me cry

Both:

when you left i thought that it was me
now i see thats how itll be dont come back to me
i dont need you in my life no more
i can see that we always did rush
i didnt love you all that much
we wont keep in touch
baby we wont keep in touch

Both: {extreme high note}

when you left i thought that it was me
now i see thats how itll be dont come back to me
i dont need you in my life no more
i can see that we always did rush
i didnt love you all that much
we wont keep in touch
baby we wont keep in touch
