Verse 1

I said I smoke some I drink
Whether you take a shot or you roll up
Get up outta my zone everybody got a issue nigga so
what
We just trying to have fun I'm just trying to see that she
do
When that beat drop beat knock I'm just trying to see
that she move
Bounce faded I'm running on e
Feeling yo girl should I play it lowkey
Feeling myself hope I don't od
Feeling myself hope I don't od
Gone bad days I'm use to good days don't see much
When work long I hate life and I've hated life for like
three months
Wanna get out outta my mind outta this world
Where it's just me by myself By myself don't need no
girl
Need no lies dammit I try Try so hard hard as a
mutherfucker
But that fuck nigga right there Nigga right there always
wanna keep me under cause
They don't really do it like this
They don't really do it like this
They don't really do it like this
They don't really do it like this
That's why they talk shit I make moves
Too many girls I can't choose
It's too much life too much So I drown it out when that
bass boom
And let go fuck everything
And let go fuck everything
And let go fuck everything
And let go and just fuck everything
Now I'm in my zone and you can't get in
Just me in my zone getting lost in it

Chorus

He don't even know he lost
He don't even know he lost
He don't even know he lost
He don't even know get lost in music (x2)

Mind gone spaced out (x4)

Verse 2

Sometimes I feel like giving up but I don't
I got too much riding on me too many girls wanna ride
on d
Gone LGi be that home team
Rep that well we gone see
In that and she gone scream
I've failed before but I succeed
Gotta ease the pain So I smoke weed
I get lost in music hope I don't leave
And that's ever never been the type to hate
But I see a lotta fuck niggas trying to bring me down
Trying to bring me down but they can't cause
They don't really do it like this
They don't really do it like this
They don't really do it like this
They don't really do it like this
They talking I make moves
Too many girls I can't choose
It's too much life too much So I drown it out when that
bass boom
And let go fuck everything
And let go fuck everything
And let go fuck everything
And let go and just fuck everything
Now I'm in my zone and you can't get in
Just me in my zone getting lost in it

Chorus

He don't even know he lost
He don't even know he lost
He don't even know he lost
He don't even know get lost in music (x2)

Mind gone spaced out (x4)
