I am the hardest worker I know
Cause my father taught me how to grow
And my mother stood by his side
Yes, I have lived a pretty good life

I am the chemist who invented love
Greater than myself and all of the above
But my calculations must have been wrong
Cause everything I worked for is thoroughly fucked

Ba ba ba ba ba ba ba ba [x4]

I am the hardest worker I know
Cause my father taught me how to grow
And my mother stood by his side
Yes, I have lived a pretty good life

Ba ba ba ba ba ba ba ba [x8]
