It's wonderful, Swonderful,

Tell you a story,
May seem hard to believin' time of the season,
All of my glory made me much more aware of the
problem we share.
If we unite it'll all turn out right.
It's wonderful, you can feel it believe me.
Swonderful, everything'll turn out right.
Swonderful, I'm gonna take you with me.

Every awareness
Seems to bring us together, storm in the weather.
Being enlightened is like choosing the road in which
you wish to go,
Planting a seedling and watching it grow.
Wonderful, you can feel it believe me.
Wonderful, everything'll be right
Swonderful, I think I'm goin', goin',
Goin', goin', goin', goin', goin'...
People keep happy,
You'll be happier yet for there's help: you forget.
When you are happy every place feels like home 'cause
you're never
Alone.
There's much to be said but it's all in your head.

Swonderful, ain't it groovy,
Swonderful,
Swonderful, you can feel it believe me,
Swonderful, everything'll be right, right, right,
I'm gonna take you with me.
Swonderful bye, bye
